

# ASIS International announces top ten accolades awards winners at 60th annual conference

ASIS International, the largest organization for security professionals worldwide, unveiled its judges' selection of ten winners of the 2014 Accolades Awards at its 60th annual conference and trade show held Sept. 29–Oct. 2 at the Georgia World Congress Center in Atlanta, Ga.

In a new “Judges Choice” award, American Science and Engineering, Inc of Billerica, MA was cited for the most innovative product of the year among the top ten winners, for its Mini Z Handheld Backscatter Screening System, which was described as follows:

“The MINI Z system is a breakthrough, handheld Z Backscatter X-ray imaging system that security and public safety officials can use ‘on the go’ for fast, portable, real-time detection of concealed organic threats (e.g. explosives, plastic guns, ceramic knives, etc.) drugs, and other contraband in suspicious bags and hard-to-reach locations.”

Senstar, Inc, with offices spanning the globe, received honorable mention among the top ten winners for its CyberVigil Security Switch in the category of “Cyber Security, Ruggedized Cyber Security Ethernet Switch, Security.” The product was described as follows:

“CyberVigil is an industrial cyber security ethernet switch that provides unique protection for physical security and industrial control systems (ICS) against cyber-attacks. It has ironclad security together with full featured networking capabilities, optimized for physical security networks, SCADA systems, and utility control systems.”

Senstar was also named a winner in the Accolades Program for its recently released Roboguard: Outdoor Perimeter Security, which was described as:

“Roboguard is an agile robot, traveling on a monorail along smart fences. It carries an assortment of payloads such as a fence scanner, cameras and intercom. It can replace the manned patrols for: the routine ‘healthcheck’ patrol and first response to intrusion alerts within tens of seconds.”

“The entries this year were extremely impressive, making the task of selecting the winners a challenge,” observed Accolades Co-Chair Ron Lander, CPP. “The security profession today has an amazing array of high quality products and services to choose from, as ASIS 2014 attendees will see in the exhibit hall this year, along with Accolades winners,” noted Co-Chair Howard Belfor, CPP.
